

Aquagarden Modern

from **\$967** inc GST

750 Litre Leader Tank & 1500, 2250 & 3000 Litre Units

The complete all in one garden watering system. Plug it in and add rainwater. The Aquagarden watering system is a convenient way to store and deliver rainwater to your garden and is ideal for the modern urban outdoor living area.

All Units Supplied With

- Stainless submersible pump
- Rainwater tank
- Pressure controller
- Operators manual
- Quality Garden Tap Fitting
- "Rainwater Utilisation system in use" sign

Aquagarden Features

- Demand pump – will shut off once you release trigger on hose or turn off tap
- Square design for stronger durability
- Easily caters for Frogmouth, Lazy Lizard or Tadpole filters (sold separately)
- Intelligent controller features power on, pump on and failure L.E.D
- Can be transported in the back of most station wagons (see dimensions below)
- Can generally be manoeuvred by one person when empty

Aquagarden Benefits

- Modern Garden is a complete system. It includes tank, pump, controller, and fitted garden tap
- Easy installation – requires only a single outdoor power point (10 Amp)
- Unlimited capacity – just keep adding tanks in 750 ltr increments. Can be added to initially or later on to suit the customers requirements
- Eliminates the frustration of buckets, watering cans and gravity tank systems
- Modular size allows access through doorways and gates and enables easy access in restricted areas
- Used in combination with a Frogmouth Filter, Modern Garden requires a single down pipe connection only, meaning less work and effort for you to install
- Does not require a stand. A concrete slab or pavers are fine.
- Provides rainwater for garden use

Basic Specifications

- Power: 240-volt – (10 Amp)
- Pipe Connections: 90mm round
- Max Output: 320kpa at tap
- Max Head: 30m

12 month warranty on all other components.

Frequently Asked Questions

Q: Will it work with my garden sprinkler system?

A: The Modern Garden is designed for garden watering at pump pressure but can also run a sprinkler, misters, and pressure washers occasionally. They are not designed for dripper systems or any type of outlet that puts back pressure on the pump

Q: Can I fit a filtration system to the Modern Garden?

A: There are a range of Silvan H2O filters that can be fitted to the Modern Garden

Q: Will the pump continue running if there is no water in the tank?

A: No- the pump will detect if tank is empty and will not operate until the tank has a minimum level of water in the bottom.

Q: Am I entitled to rebates?

A: Please visit www.silvanh2o.com.au to obtain information on government rebates applicable in your area.
