

Aquagarden Tower

from **\$1,580** inc GST

1000 Litre Leader Tank & 2000, 3000 & 4000 Litre Units

Simply start with 1000 litre leader tank per below – then attach “add on” tanks in 1000 litre increments. There is no limit to amount of “add on” tanks.

All Units Supplied With

- Submersible pump
- Rainwater tank
- Pressure controller
- Operators manual
- Quality garden tap fitting
- “Rainwater Utilisation system in use” sign

Aquagarden Features

- Unlimited capacity – just keep adding tanks in 1000 litre increments
- Intelligent controller features power on, pump on and failure LED
- Demand pump – will shut off once you release trigger on hose or turn off tap
- Easily caters for Frogmouth filter which is sold separately
- No need to bend down to connect your garden hose. The attractive central panel locates the tap at a convenient height for you.

Aquagarden Benefits

- Aquagarden requires a single downpipe connection only, meaning less work and effort for you to install.
- Easy to install and requires only a single outdoor power point (10 Amp)
- Eliminates the frustration of buckets, watering cans and gravity tank systems
- Aquagarden is a complete system. It includes tank, pump, controller, garden tap and instruction manual.
- IP65 rating for you protection

Basic Specifications

- Power: 240-volt – (10 Amp)
- Pipe Connections: 90mm round
- Max Output: 320kpa at tap
- Max Head: 30m

Frequently Asked Questions

Q: Do I need a stand for the tanks?

A: No, a concrete slab or pavers is required

Q: What is the maximum water capacity?

A: Each Aquagarden tank system holds 1000 litres, (add on tanks can be fitted at any time) Add on tanks hold 1000 litres.

Q: Will it work with my garden sprinkler or dripper system?

A: No

Q: Will the pump continue running if there is no water in tank?

A: No – the pump will detect if tank is empty and will not operate until the tank has a minimum 150mm of water in the bottom

Q: What is the maximum length of hose I can use?

A: Recommended hose length up to 30m – Hose length may be extended further but first check with manufacturer as there are many different factors which must be considered (gradient, temperature hose diameter etc).
